PROFESSIONAL PROFILE

Technology has allowed me to explore different areas of the IT field—from web development and UI design to technical documentation, administrative support, and project coordination. Through my academic projects and internship, I developed practical experience creating user-friendly solutions, documenting system workflows, and collaborating with teams to deliver organized and accurate outputs. My strengths lie in learning new technologies and adapting to new challenges, and finding practical solutions to problems. I am excited to start my career and will strive to apply my skills while continuing to learn, grow, and make a contribution to the success of the company.

WORK EXPOSURE

Technical Documentation Intern (User Manual Development)

Nehemiah Solutions Corporation

February-May 2026

- Led a documentation team of 7 members by coordinating task assignments, facilitating communication with supervisors, and tracking project progress to ensure timely delivery of documentation, earning a 120/120 overall internship performance evaluation.
 - Authored 3 user manuals and technical documentation sets for the School Information Management System (SIMS), TaskFlow, and Pickle Pro World, translating complex system workflows into clear, user-friendly guides.
 - Presented completed documentation deliverables and project updates to supervisors and stakeholders, incorporating feedback from multiple review cycles to improve documentation quality and alignment with project requirements.
 - Developed workflow documentation and reference materials that improved system adoption for both technical and non-technical users across the company.
-

WORK EXPERIENCE

Private Tutor (Elementary Student) (Freelance)

July-December 2022

- Provided one-on-one tutoring to a Grade 1 student over a 6-month period, supporting core subjects through school-provided learning modules and personalized guidance.
 - Simplified lessons and reinforced key concepts to help the student complete self-learning modules and academic activities.
 - Built a consistent and supportive learning environment by applying strong communication, patience, and organizational skills.
-
